

Node is a box that contains 2 things  
first box is data, next box is next.

1) Node n1 = new Node(5);

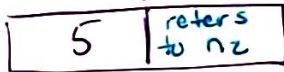

Part 1

2) Node n2 = new Node(10);

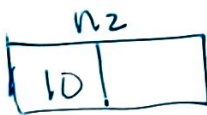

3) n1.setNext(n2);

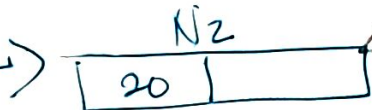

after line 5

4) n2.setNext(new Node(15));

5) n2 = new Node(20);

release no longer exists.

6) Node n3 = new Node(25, n2);
